

Part No. 88325 Camber/Caster Adjustment Tool Instructions

All products available from Specialty Products Company are intended for use by professional installers only.

1. Loosen the 2 nuts on top of the adjusting cams.
2. Using a long 1/2" drive extension and 1/2" drive ratchet, install the 88325 tool over the top of the cam to be adjusted.
3. Rotate the cam to manufacturers specifications.
4. Tighten the stud nut to manufacturers specifications while holding the cam with the 88325 tool.

Always check for proper clearance between suspension components and other components of the vehicle.

5. Toll free technical hotline: 1-800-525-6505
